

# PILKINGTON OPTISHOWER™

REDUCE LIME BUILD-UP AND STOP SURFACE CORROSION IN SHOWER GLASS

# OPTISHOWER™

Choose long-lasting clarity with OptiShower by Pilkington. This clear-coated shower glass ensures timeless durability and long-lasting protection against surface corrosion in moist and humid environments. With OptiShower, the glass remains free from oxidation and promises easy cleaning for years to come. Customers benefit from endless design options by pairing OptiShower with Peterson's shower enclosures – making it the perfect choice for your next construction project.

## BENEFITS

- Durable, on-line clear float glass that reduces surface corrosion
- Pyrolytic coating with high abrasion resistance
- Easy cleaning

## OPTIONS AND ADD-ONS

- Available on Clear and Optiwhite™
- Available in both 3/8" and 1/2" polished
- Can be toughened, curved, or laminated
- Endless design possibilities including screen printing or etching

## PERFECT FOR

- Shower enclosures and wall coverings around the bath
- Glass in high-humidity environments, including swimming pools, car washes, and more

## COMPARATIVE ANALYSIS

Left: Limescale buildup. Right: OptiShower application remains clear.

When subjected to high temperatures and humidity in aging tests, OptiShower has been shown to mitigate surface corrosion and calcium deposits with long-term use, when compared with untreated glass.
